

## รายชื่อ Project 1 ปี 2558

AdvisorID	YearID	Project1NameEng
CPC	2558	Symmetry should be confirmed before yhe test, Kasuya E.2010,Animal Behaviour, 79,765-767
CPC	2558	Performance Evaluation of a Tukey's Control chart in Monitoring Gamma Distribution and short run Process,T. Chau-Chen, et.al,2009, Proceedings of the International Multi Conference of Engineers and Computer Sciemtists, Vol II
CPC	2558	Robust Regression Diagnostics of Influential observations in Linear Regression model. Ayinde K.,Lukman A.F. and Arowolo O.,2015,273-283
CPC	2558	Control charts for Skewed Distributions : Weibull, Gamma, and Lognormal, Derya, Karagoz and Canan, Hamurkaroglu, 2012, Metodoloski zvezki, 9(2), 95-106
NPK	2558	Regression methods for analyzing the risk factors for a life style disease among the young population of India, B.Ismail and Manjula Anil, 2014, India heart journal 66, PP.587-592
ORP	2558	Development of the regional freight transportation demand prediction models based on the regression analysis methods, Yandong Yang, 2015, Neurocomputing, 158 : 42-47
NPK	2558	An Introduction to Logistic Regression : From Basic concepts to Interpretation with Particular Attention to Nursing Domain, Park, Hyaoun-Ae,2013, J Korean Acad Nurs; 43 : 154-164
ORP	2558	Robust control charts for time series data, Christophe Croux, Sarah Gelper, Koen Mahieu, 2011, Expert Systems with Applications, 38, 13810-13815
PKP	2558	Performance of ridge regression estimator methods on small sample size by varying correlation coefficients :a simulation study, Anwar Fitrianto and Lee Ceng Yik, 2014, Journal of mathematics and statistics 10, 25-29
NPM	2558	Using OLS to test for normality, Haim Shalit, 2012, 82, 2050-2058
WDP	2558	Computers Ops Res, vol.25, No.3, pp.175-182, 1998

AdvisorID YearID Project1NameEng

- WDP 2558 An efficient constructive heuristic for flowtime minimisation in permutation flow shops, J.M. Framinan, R.Leisten
- WDP 2558 A heuristic to minimize total flow time in permutation flow shop, Dipak Laha, subhash C.Sarin, Omega 2009; 37 : 734-739
- WDP 2558 An improved NEH-based heuristic for the permutation flowshop problem, X.Dong, H.Huang and P.Chen, China : Computers & Operations. Research,2008, Vol.35 Page 3962-3968
- SPM 2558 Methodological insights for industrial quality control management : The impact of various estimators of the standard deviation on the process capability index Encarnacion Alvarez, Pablo J. Moya-Fernandez, Francisco J. Blanco-Encomienda Juan F. Munoz, 2015, Journal of King Saud University-Science (2015) 27,271-277
- SPM 2558 Implementing control charts to corporate Financial Management, Kovarik.M, Sarga.L, 2014, WSEAS TRANSACTION on MATHEMATICS, Volume 13 (246-255)
- SWS 2558 Quality control and Industrial Statistics, Duncan, A.J.,1986, Irwin Illinois
- NPM 2558 Improved class of ratio and product estimators, Subhash Kumar Yadav, Cern Kadir, 2013, Applied Mathematics and computation., 219, 10726-10731
- ORP 2558 Confidence intervals for the median of a Gamma distribution, B.M. S.G. Banneheka, 2010, Vidyodaya J.of Sei, 15 (1) :
- SPM 2558 Data Envelopment analysis of banking in bangladesh, Hoque R. and Rayhan I.,2012, Russian Journal of Agricultural and Socio-Economic science, No.5(5)/2012, 17-22
- SPM 2558 An improved attribute control chart for monitoring non-conforming proportion in high quality process, Silvia Uoekes, Emanuel Pimental Barbosa, 2013, control Engineering Practice, 21, 407-412
- SNP 2558 Markus Baldauf, J.M.C. Santos Silva Economics Letters 114 (2012) 124-127
- SWS 2558 Alemi F.Tukey's control chart. Quality Management in Health 2004; 13(4):216-221

AdvisorID YearID Project1NameEng

- SPN 2558 Multiple Regression model for forecasting quantity of supply of off-season Longan, Chompoonoot Kasemset, Nisachon Sea-Meaw and Apichat Sopadang, CMUJ Nat.sci, 2014; 13(3) : 391-402
- SPN 2558 Rujirek Boosarawongse, Henry C.Co, ping Feng. International DSI/Asia and Pacific DSI(2007) : [19 screens]. Available from : <http://www.sciencedirect.com/science/article/pii/S0360835207000952.com>, Accessed September 5, 2015
- KWS 2558 Variable sampling plans for normal distribution indexed by Taguchi's loss function, Arizono I., Kangawa A., Ohta H., Watakabe K., Tateishi K., 1997, Naval Research Logistics 44, 591-603
- YPA 2558 A new estimation of the variance based on minimizing mean squared error, Koutoukis S., 2012, The American Statistician, 66:4, 234-236
- WPY 2558 Forecasting zero-inflated price changes with a Markov switching mixture model for autoregressive and heteroscedastic time series, Holger Komm\*, Ulrich Kusters, 2015, International Journal of Forecasting, 31, 598-608
- KWS 2558 A new control chart for exponentially distributed life using EWMA, Muhammad Aslam, Muhammad Azam and Chi-Hyuck Jun, 2015, 205-210, Transactions of the Institute of Measurement and Control
- KWS 2558 A note on interval estimation of the standard deviation of a gamma population with applications to statistical quality control, Jaron Frost, Kara Keller, Jonathan Lowe, Toya Skeete, Shonte' Walton, Jessie Castille, Nabendu Pal, 2013, Applied Mathematical Modelling 37, 2580-2587
- SPN 2558 Confidence interval for locations of Non-Kurtosis and Large Kurtosis Leptokurtic Symmetric distributions, Al-Athari, F.M., 2011, Journal of applied sciences, 528-534, Asian network for scientific information
- SNP 2558 Investigating predictors of examination result data using logistic regression (A case study of Imo state polytechnic, Umuagwo, Imo, state, Nigeria) Opara Jude', Esmokumo Perewarebo Akpos\*, Theagwara Andrew Ihuoma, Okenwe Idochi, OSUJI GEORGE A., American Journal of theoretical and applied Statistics, 2013, 2(6) : 255-267

AdvisorID	YearID	Project1NameEng
YPA	2558	Forecasting returns for the stock exchange of Thailand index using multiple regression based on principal component analysis, Sopipan N., Sattayatham A., and Chongcharoen S., Journal of Mathematics and Statistics 9, 2013, 29-37
YPA	2558	A Study on the $S_{-2}$ EWMA chart for Monitoring the Process variance based on the MRL performance, Yin T.S., et al., Sains Malaysiana 2015; 44(7):1067-1075
WPY	2558	Logistic regression to predict Termit Occurrences with Enviromenrtal variables in primary forest and oil Palm Ecosystem, Wong Mum Keng and Homathevi Rahman.,2012, APCBEE Procedia., 53-57
PKP	2558	Sample size determination for regression models using monte carlo methods in R., A. Alexander Beaujean, Baylor University,2014, Pratical Assessment, Research & Evaluation, 19(12) 1-14, Available online : <a href="http://pareonline.net/getvn.asp?v=19&amp;n=12">http://pareonline.net/getvn.asp?v=19&amp;n=12</a>
UJN	2558	Eeponentiated powerlindley distribution,Samir K. Ashour, Mahmoud A. Eltehiwy, Journal of Advanced Research, 2014, <a href="http://dx.doi.org/10.1016/j.jane.2014.08.005">http://dx.doi.org/10.1016/j.jane.2014.08.005</a>
YPA	2558	A model to enhance the forecasting efficiency of suez canal revenues using combining methods, Mohamed R.A.H, Advances and applications in Statistics, Submitted paper
BKD	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River 2001
BKD	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River, N.J., 2001
BKD	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River, N.J., 2001
SPH	2558	One way anova and Least squares method based on Fuzzy random variables, Alireza Jiryaei, Abbas Parchami, Meshaalla Mashinchi, Turkish Journal of Fuzzy Systems (eTSSN:1309-1190),Vol.4,No.1,pp.18-33,2013
SPH	2558	Estimating the parameters of a Fuzzy Linear regression model, A.R. ARABPOUR AND M. TATA.2008.,Iranian Journal of Fuzzy systems vol.5, No.2 pp.1-19

AdvisorID	YearID	Project1NameEng
SPH	2558	CAPM with Fuzzy returns and hypothesis testing, A Mbairadjim Moussa, J.Sudefo Kumdem, A.F. Shapiro, M.Terruxa,2014, Insurance : Mathematice and Economics volume 55, P.40-57
SPH	2558	Test on mean, Variance known, James J. Buckley : Fuzzy Probability and Statistics, Stud Fuzz 196, 143 99 (2006),www.springerlink.com Springer-Verlag Berlin Heidellberg
TTN	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River 2001
TTN	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River 2001
TTN	2558	Fuzzy Probabiluty and Statistics,James J.Buckley, StudFuzz 196, 187-192 (2006)
TTN	2558	Fuzzy Probabiluty and Statistics,James J.Buckley, StudFuzz 196, 187-192 (2006)
UJN	2558	Auto insurance preminm calculation using generalized linear models.,David M., Mihaela David/Procedia Economics and Finance,20(2015), 147-156
ORP	2558	The role of life insurance in an emerging economy : Human capital protection assets allocation and social interaction, Xiaojun Shi, Hung-Jen Wang, Chunbing Xing, 2015, Journal of Banking & Finance, 19-33
SWS	2558	On efficient skewness correation charts under contamisation and Non-Normality, Muhammad Riaz, Rashid Mehmood, Muhammad Rizwan Iqbal and Akber Abbasi, Quality and Reliability Engineering International 2015; DOI:10.1002/qre.1795
PKP	2558	Regression analysis for prediction of residential energy consumption, Nelson Fumo, M.A. Rafe Biswas, Renewable and Sustainable Energy Reviews 47(2015),332-343
KNT	2558	Standard Deviation of the Run Length (SDRL) and Average Run Length (ARL) performances of EWMA and Synthetic Chart, Michae B.C. Khoo, S.Y.Teh, X.Y. Chew and W.L.Teoh, 2015, Inter national Journal of Engineering and Technology, vol.7(6), PP.513-518

AdvisorID	YearID	Project1NameEng
PKP	2558	Using Muti-regression to Analyze and Predict Road Traffic Safety Level in China, Wuhan, P.R. China, The 3rd International Conference on Transportation Information and Safety, pp.363-369, 2015
NPM	2558	Robust tests for normality of errors in regression models, A.Ozlem Onder, Asad Zamam, 2004, Economics Letters 86 (2005) 63-68
UJN	2558	A new modified weibull distribution, Saad J. Almalki, Jingsong Yuan, Reliability Engineering and system Safety, 111 (2013), 164-170
NPK	2558	A Robust test for Multivariate normality, Kristian Jonsson, 2011, Economics Letters 113(2011), 199-201
UJN	2558	Comparison of Weibull distribution and Exponentiated Weibull distribution based estimation of mean and variance of wind data, Debanshee Datta and D.Datta, International Journal of Energy, Information and Communications., Vol.4 Issue 4, August, 2013
KWS	2558	Control chart limits for a attributes and events, A.F. Bissell, J. Appl Stat. 15(1)(1988) 97-105
BKD	2558	Probability and Statistical Inference, R.V.Hogg and E.A.tanis, Sixth Edition, Prentice Hall, Upper Saddle River N.J., 2001
SWS	2558	On designing a new Tukey-EWMA control chart for process monitoring, Qurat-UI-Ain Khaliq, Muhammad Riaz, Shabbir Ahmad, 2015, DOI 10.1007/s00170-015-7289-6
SNP	2558	Statistical and econometric analysis of the impact of China's energy, environment on the economic development, NAN Yingzi, GAO Yuying, Energy Procedia 5(2011) 2358-2362
KNT	2558	On the Sensitivity of Poisson EWMA control chart, A. Ramat et at., Malaysia : International Journal of Humanities and Management science (IJHMS) volume 1, Issue 1 (2013) ISSN 2320-4044, 2013 pp.18-22
SNP	2558	The forecasting properties of survey-based wage-growth expectations, Thomas Jonsson and Par Ostenholm, 2014, Economic Letters, 113, 276-281, Journal homepage : <a href="http://www.elsevier.com/locate/eolet">www.elsevier.com/locate/eolet</a>

AdvisorID	YearID	Project1NameEng
NPK	2558	Students'Beliefs on Mathematics and Achievement of University Students., Velo Suthar*, Rochani Ahmad Tarmizi, Habshah Midi and Mohd Bakri Adam, 2015, 8., 525-531
KNT	2558	Double Chain Ladder, Maria Dolores, Martinez Miranda, Jens Perch Nielsen, Richard Verrall, 2012, ASTIN Bulletin
JSJ	2558	Extended maximum generally weighted moving average control chart for monitoring process mean and variability, Sheu S-H, Huang C-I and Hsu T-S, Computers & Industrial engineering 2012; 62:216-225
KNT	2558	Multivariate control chart based on the James-Stein estimator, Wang H., Huwang L. and Yu, J.H., 2015, European Journal of Opeartional Research, 246, 119-127
JSJ	2558	A Novel Cusum median control chart, Yang L., Pai S. and Wang Y-R, Proceeding of the International multiconference of engineering and computer scientists 2010, Hong Kong
JSJ	2558	A parametric bootstrap method of computation of control limits of charts for skewed distribution, Lukin V., Yaschenko V., IEEE, 2015, pp.102-109
JSJ	2558	Data-driven nonparametric tolerance, Frey J., 2010
JSJ	2558	A study on the Run Length distribution of synthetic $\bar{X}$ chart, Z.L. Chong, Michael B.C. Khoo and H.W. You, Internaticnal Journal of engineering and technology, Vol 8, No.5, May 2016
